Professional Summary

I enjoy exploring data and uncovering the stories hidden within it. With a foundation in Computer Science, I focus on transforming raw information into insights that drive meaningful outcomes. I am comfortable working with tools like Python, SQL, and Power BI. In addition, I am motivated by the idea of using data to make smarter and more informed decisions.

Work Experience

Centre for Development Innovation and Practices (CDIP) May 2025 – October 2025

Management Trainee – Digitization Department

- Designed and deployed an automated data pipeline from Microfin360 using web automation, reducing manual reporting effort by 40%, enabling the analytics team to shift from data collection to decision-support analysis.
- Built a suite of Power BI dashboards (DAX measures, Power Query ETL, multi-table data models) that gave senior leadership their first real-time view of field-level operational KPIs, replacing a 3-day manual Excel cycle with live reporting.
- Led 5+ digitization and automation projects end-to-end from business requirements scoping and stakeholder alignment through delivery coordinating across IT, operations, and program teams with zero missed deadlines.
- Conducted recurring analysis of field-level operational data to surface trends, identify performance gaps, and build KPI frameworks findings directly fed into quarterly strategic planning and BI reporting cycles.
- Designed and delivered a data literacy program for 30+ SACMO employees covering Excel reporting, internal data systems, and IT security improving data accuracy and reporting consistency across branches.
- Conducted the Microfinance Excellence Training (MET), a 7-day onboarding program for new Field Officers and Branch Accountants, covering operational workflows, data reporting, IT security, and digital tools.
- Collaborated cross-functionally with IT, operations, and program teams to implement digital transformation initiatives and optimize workflows.
- **Tools:** Excel, PowerPoint, Power Bi, SQL, Python, Pandas, NumPy.

Neuron33 | *Academic* Jan 2024 – May 2024

Web Developer Intern

- Rebuilt company web platform from WordPress to a custom PHP/Laravel stack integrated third-party APIs and designed responsive, data-driven UI components.
- Developed an understanding of system architecture, backend data flows, and API-level data integration for improved functionality.
- **Tools:** HTML, CSS, Bootstrap, MySQL, PHP, Laravel, REST API, Git.

Education

Independent University, Bangladesh (IUB) September 2024

Major: Computer Science and Engineering

Minor: *Management Information System*

Key Projects

- **Redefining Neoroverse** | *Academic Project* (May 2024) 🔗: Dynamic web platform with Laravel, replacing WordPress with integrated REST APIs.
- **Blockchain-Enabled Prawn Quality Tracking System** | *Academic Project* (Oct 2023) 🔗: Designed blockchain system for traceability and quality assurance in prawn supply chain.
- **Cafeteria: Canteen Management System** | *Academic Project* (Oct 2023) 🔗: Web-based ordering system using HTML, CSS, Bootstrap, PHP, MySQL.
- **Student Performance Monitoring System** | *Academic Project* (Oct 2023) 🔗: Built system to track academic progress through assessments.

Skills

- **Programming:** Python (Pandas, NumPy, Matplotlib, Selenium), SQL, Java.
- **Data Visualization:** Power BI, IBM Cognos, Excel (Pivot Tables, Dashboards, Advance Formulas)
- **Database Tools:** MySQL, PostgreSQL
- **Data Processing:** Web scraping, JSON, APIs
- **Tools:** Jupyter Notebook, Git, MS Office Suite
- **Operating Systems:** Windows, Linux (Ubuntu)
- **Familiarity With:** Data Cleaning, Descriptive & Inferential Statistics, Business Intelligence, SDLC , Agile methodologies, UI & UX Design .
- **Soft Skills:** Analytical Thinking, Communication, Problem-Solving, Collaboration
- **Languages:** Bengali (Native), English

Achievements

System Analysis Project Showcase of TechFest	**First Runner Up**	TechFest, Autumn 2023
Database Project Showcase of TechFest	**Winner**	TechFest, Spring 2023
THE DUKE OF EDINBURGH'S INTERNATIONAL AWARD	**Gold Standard**	Dec 2022

Extracurricular

Passionate about exploring real-world problem solutions and staying curious about emerging trends. In my free time, I enjoy photography, riding bikes, playing chess and reading about new technologies.
