Avijit **Saha**

BSc in Computer Science & Engineering

Prianka Runway City, Uttara, Dhaka, Bangladesh

(+88) 01621787776 | avijit4kumar@outlook.com | avijit4kumar | 2vijit

Professional Summary

I enjoy exploring data and uncovering the stories hidden within it. With a foundation in Computer Science, I focus on transforming raw information into insights that drive meaningful outcomes. I am comfortable working with tools like Python, SQL, and Power BI. In addition, I am motivated by the idea of using data to make smarter and more informed decisions.

Work Experience

Centre for Development Innovation and Practices (CDIP) May 2025 – October 2025

Management Trainee – Digitization Department

- Oversee digitization projects, ensuring on-time delivery and quality standards with facilitate cross-functional collaboration.
- Conducted data collection,processing and applied data visualization to support management reporting and strategic planning and digitization initiatives.
- **Tools:** Excel, PowerPoint, Power Bi, SQL, Python , Pandas, NumPy, Selenium.

Neuron33 | *Academic* Jan 2024 – May 2024

Web Developer Intern

- Led website redesign, replacing WordPress with modern PHP, Laravel, HTML, CSS, and Bootstrap platform.
- Enhanced UX with responsive design and integrated third-party APIs for improved functionality.
- **Tools:** HTML, CSS, Bootstrap, MySQL, PHP, Laravel, REST API, Git.

Education

Independent University, Bangladesh (IUB) September 2024

Major: Computer Science and Engineering

Minor: *Management Information System*

Key Projects

- **Redefining Neoroverse** | *Academic Project* (May 2024) 🔗: Dynamic web platform with Laravel, replacing WordPress with integrated REST APIs. Dynamic web platform with Laravel, replacing WordPress with integrated REST APIs.
- **Blockchain-Enabled Prawn Quality Tracking System** | *Academic Project* (Oct 2023) 🔗: Designed blockchain system for traceability and quality assurance in prawn supply chain.
- **Cafeteria: Canteen Management System** | *Academic Project* (Oct 2023) 🔗: Web-based ordering system using HTML, CSS, Bootstrap, PHP, MySQL.
- **Student Performance Monitoring System** | *Academic Project* (Oct 2023) 🔗: Built system to track academic progress through assessments.

Skills

- **Programming:** Python (Pandas, NumPy, Matplotlib, Selenium), SQL, Java.
- **Data Visualization:** Power BI, IBM Cognos, Excel (Pivot Tables, Dashboards, Advance Formulas)
- **Database Tools:** MySQL, PostgreSQL
- **Data Processing:** Web scraping, JSON, APIs
- **Tools:** Jupyter Notebook, Git, MS Office Suite
- **Operating Systems:** Windows, Linux (Ubuntu)
- **Familiarity With:** Data Cleaning, Descriptive & Inferential Statistics, Business Intelligence, SDLC , Agile methodologies, UI & UX Design .
- **Soft Skills:** Analytical Thinking, Communication, Problem-Solving, Collaboration
- **Languages:** Bengali (Native), English

Achievements

System Analysis Project Showcase of TechFest	**First Runner Up**	TechFest, Autumn 2023
Database Project Showcase of TechFest	**Winner**	TechFest, Spring 2023
THE DUKE OF EDINBURGH'S INTERNATIONAL AWARD	**Gold Standard**	Dec 2022

Extracurricular

Passionate about exploring real-world problem solutions and staying curious about emerging trends. In my free time, I enjoy photography, riding bikes, playing chess and reading about new technologies.
